WORKSHOP DETAILS

PROGRAM

IT training as the engine of the future

Our IT trainers are here to answer all your questions about our modern IT training courses.

Oracle/Access and much more - IT certification

Secure the best opportunities for attractive internships and jobs for yourself during your vocational training through special certification.

Electronic engineering at your fingertips

Learn something about the work of light sensors and Diode circuits.

Everything under control!

Here we show you 4-bit programming and how a microcontroller works.

IT patchwork

Create your own LAN cable under instruction and take it home with you.

00101010 - The answer to everything

Configure „19“. Here we show you how to set up a small network properly.

Office jobs in the digital age

The heads of the commercial education departments are here and ready to answer all your questions about our commercial training.

Monetary stability - Why do we need it?

We will explain to you in vivid examples, what monetary value and price stability mean in modern economies and we find out about the ECB's inflation target.

SAP taster course

What is ERP software? We will explain to you how simple processes in SAP work.

Keystroke queen

How fast can you type when the clock is ticking? Find out!

Business quiz!

Here you can take part in a fun test, with questions in the area of law, business studies + mathematics, to see how fit you are for the world of commerce!

Internationally successful with foreign-language careers

Our head of department for foreign languages will answer all your questions about our training courses in foreign languages.

Taster courses in foreign languages

Try your hand at these taster courses in your chosen language and discover a new exciting one!

Chinese paper cut

Learn one of the oldest Chinese folk arts: the Chinese paper cut.

Origami (Japanese)

Learn the art of this fine paper folding technique in the Japanese style!

Calligraphy (Japanese)

Try your hand at the art of calligraphy, which is still part of the Chinese, Japanese and Korean cultures today.

Weiqi (or 圍棋)

Learn this old Chinese board game, which is also known under the name „Go“!

Gimbap (Korean)

Make it yourself with professional guidance. Gimbap - the popular Korean sushi.

Test your English!

English with fun - a computer quiz in which you can test your knowledge of vocabulary, grammar and idioms as well as „False Friends“!

School degrees 4.0

Here you can find our head of department for the MSA (school-leaving certificate) and the Fachhochschulreife (university entrance qualification) who can answer all your questions.

How to learn today!

What is a digital textbook? How do you work with it? Have fun testing yourself!

Prospects with eBBR, MSA + Abitur

Here we inform you about which school-leaving qualifications are offered in each training course and we would be happy to receive your application.

Politics bingo!

Politics, history, sport - Test your knowledge!

Water - our elixir of life /

Fitness measuring stations

Experience an exciting experiment on blood circulation and test different diagnostic methods of the body and your fitness.
